Introduction

Public Bodies 1997

Public Bodies 1997 provides statistical information about those public bodies operating at a national or regional level for which Ministers have a degree of responsibility. As these bodies undertake a diverse range of activities, the extent of Ministerial involvement necessarily varies from body to body. In most cases, however, Ministers are responsible for making some or all of the appointments to the boards which oversee the bodies' operations. Ministers are also responsible for ensuring that such bodies operate within a recognised and agreed management and financial control framework, and that appropriate safeguards are in place to ensure that the highest standards of propriety are maintained.

Coverage

The following groups of public bodies are included in this publication:

- Non-Departmental Public Bodies (NDPBs) or Quangos;
- Public Corporations and Nationalised Industries; and
- National Health Service (NHS) Bodies.

Non-Departmental Public Bodies or Quangos

A non-departmental public body (NDPB) or quango is a body which has a role in the processes of national government, but is not a government department, or part of one, and which accordingly operates to a greater or lesser extent at arm's length from Ministers. There are four types of NDPB:

Executive bodies : These bodies carry out a wide variety of administrative, regulatory and commercial functions. They generally operate under statutory provisions, employ their own staff and have responsibility for their own budgets. Examples include the Environment Agency and the Arts Councils. A number of executive NDPBs are classified as public corporations for public expenditure control and national accounting purposes. For further information on sector classification for the National Accounts contact Amanda Hughes, Office of National Statistics. Tel: 0171 533 5988. Email: amanda.hughes @ons.gov.uk

Advisory bodies : These are generally set up administratively by Ministers to advise them and their departments on matters within their sphere of interest. Some Royal Commissions are classified as advisory NDPBs. Generally, advisory NDPBs are supported by staff from within the sponsor department, and do not incur expenditure on their own account.

Tribunals (including bodies with licensing and appeal functions) : This category of NDPB covers bodies with jurisdiction in a specialised field of law. In general, tribunals are serviced by staff from the sponsor department. There are two types of tribunal system: standing tribunals, which have a permanent membership, and tribunals that are convened from panels, so that the actual number of tribunals sitting varies.

Other bodies : These comprise the boards of visitors to penal establishments in Great Britain, and boards of visitors and visiting committees in Northern Ireland.

Further information about policy on non-departmental public bodies may be obtained from Rob Wall, Machinery of Government and Standards Group, Cabinet Office (Office of Public Service). Tel: 0171 270 1868. Email: quangos@gtnet.gov.uk

Public Corporations and the Nationalised Industries

These are defined as corporate enterprises which are publicly owned and controlled, but which, at the same time, have a substantial freedom to conduct their own affairs along ordinary business lines. This includes the power, within certain limits, to hold reserves. Examples include the British Broadcasting Corporation and the Bank of England.

The nationalised industries represent a group of particularly large and important corporations. Examples include the Post Office and the Civil Aviation Authority. Further information about policy on public corporations and nationalised industries may be obtained from Steve Whiting, HM Treasury. Tel: 0171 270 4507.

National Health Service (NHS) Bodies

These include Health Authorities (Health Boards in Scotland), NHS Trusts, Special Health Authorities, and certain other bodies operating within the NHS (and the equivalent in Northern Ireland) to which Ministers make appointments. Further information about policy on the management of NHS bodies may be obtained from Janice Turner, NHS Executive. Tel: 0113 254 5650.

Presentation

Statistical information about each of the bodies which fall into the above groups is presented in the main tables below. Bodies are listed alphabetically by type, under their respective sponsoring department or organisation. Further information about individual bodies may be obtained from the contact shown at the beginning of each departmental entry. In the case of public corporations, nationalised industries, and executive NDPBs, information can also be obtained by contacting the body direct. Addresses and telephone numbers are listed in the index. A set of summary tables provide aggregate information about appointments to these bodies, including information on gender breakdown and, for NDPBs, details about overall numbers and expenditure. The full text of *Public Bodies 1997* is also available on the Internet at: www.official-documents.co.uk/document/caboff/bodies97/bodies97.htm

Other Public Bodies

The term 'quango' is often used in a wider sense to describe those bodies which operate at a local level, in addition to those which have a national or regional remit. Examples include further and higher education institutions and grant-maintained schools. For the first time, *Public Bodies 1997* provides summary information on these and other "local public spending bodies" (see page vi), together with cross-references to published source material where more detailed information about these bodies can be obtained.

New Initiatives

On 11 November 1997, the government published a consultation paper *Opening up Quangos* reaffirming its commitment to keeping the number of NDPBs to a minimum and setting out its proposals for making those NDPBs which remain more open, accountable and effective. This builds upon the important work which the Committee on Standards in Public Life has undertaken in recent years and which has already led to increased transparency in NDPBs and to the establishment of an independent Commissioner for Public Appointments to "regulate" the public appointments process. Copies of the consultation paper are available from Rob Wall, Machinery of Government and Standards Group, Cabinet Office (Office of Public Service). Tel: 0171 270 1868. The paper is also available on the Internet at: www.open.gov.uk/m-of-g/consult97/qufore.htm

At the same time the government published the *Executive Non-Departmental Public Bodies 1997 Report*, which summarises the

main objectives and achievements of the larger executive NDPBs. Copies of this report are available from the Stationery Office, priced 14.40. The report is also available on the Internet at: www.official-documents.co.uk/document/caboff/pubbod97/pubbod97.htm

Finally, from early 1998, details of all public appointments to national and regional public bodies (excluding tribunals and boards of visitors) will be available on the Internet at: www.open.gov.uk/pau/paupoint.htm Further information is available from Carol Berry, Public Appointments Unit, Cabinet Office (Office of Public Service). Tel: 0171 270 6217.

Local Public Spending Bodies

Local Public Spending Bodies

The term "local public spending body" is a relatively new term within Government, having first been used by the Committee on Standards in Public Life in 1996. The Committee, in their Second Report on Local Public Spending Bodies, formally defined such bodies as:

" not for profit bodies which are rarely elected and whose members are not appointed by Ministers. They provide public services, often delivered at a local level, and are largely or wholly publicly funded."

There are a number of different bodies falling within the Committee's definition which have come to be recognised by Government as local public spending bodies. These are:

- Higher Education Institutions;
- Further Education Institutions;
- Grant-Maintained Schools;
- Training and Enterprise Councils;
- Local Enterprise Companies;
- Registered Housing Associations; and
- Registered Social Landlords.

Details on the number and membership of the different local public spending bodies are given in Figure 1.

Further and Higher Education Institutions

This includes all "old" and "new" universities, higher education colleges and further education colleges. Detailed information is available from the following sources:

- information on each higher and further education institution can be found in the institution's Annual Report. Copies are available direct from the body concerned, although many institutions now make such information available over the Internet;
- summary information on all further education institutions in England and in Wales is available from the Further Education Funding Council for England[1] and the Further Education Funding Council for Wales[2]; and
- summary information on all higher education institutions in England is available from the Higher Education Funding Council for England[3]. Similar information on higher education institutions in Scotland and Wales is available from the Scottish Higher Education Funding Council[4] and the Higher Education Funding Council for Wales[5] respectively.

Grant-Maintained Schools

Grant-maintained schools are schools in which responsibility for budgets, staff appointments, pay and the ability to shape the overall aims and policy of the school previously vested in representatives of local authorities have been transferred to voluntary governors of individual schools. Information on each school can be found in the school's Annual Report. Copies of Reports are available from the schools concerned. Financial responsibility for grant-maintained schools in England rests with the Funding Agency for Schools[6]. Financial responsibility for grant-maintained schools in Scotland and Wales remains directly with the Government.

Training and Enterprise Councils and Local Enterprise Companies

Training and Enterprise Councils (TECs) are locally based companies with employer-led Boards which operate throughout England and Wales. Their role is to work in partnership to foster economic growth and contribute to the regeneration of their local areas, focusing in particular on the human resource aspects of regeneration. They have specific responsibility for developing the quality, effectiveness and relevance to the local labour market of the Government-funded training and business assistance programmes.

In Scotland, the Government established Scottish Enterprise and Highlands and Islands Enterprise with responsibility for training, economic development and environmental programmes. These activities are however contracted out to a network of Local Enterprise Companies (LECs) which have responsibility for delivery in their areas.

Detailed information on both TECs and LECs is available from the following sources:

- each TEC and LEC publishes its Business Plan, an Annual Report and an audited statement of accounts. Copies of TEC and LEC Annual Reports are available from individual bodies; and
- inter-TEC comparison tables for England and Wales are published annually by the Department for Education and Employment and the Welsh Office respectively. From 1998, the Government Offices for the Regions and the Welsh Office will produce and publish annual reports on the performance of Training and Enterprise Councils.

Registered Housing Associations and Registered Social Landlords

Registered Housing Associations (in Scotland and Northern Ireland) and Registered Social Landlords (in England and Wales) are voluntary bodies which are the major suppliers of new social rented housing in the UK. Detailed information is available from the following sources:

- information on individual associations and landlords can be found in bodies' Annual Reports. Copies of Reports are available direct from the associations or landlords concerned; and
- summary information on all registered housing associations in Scotland is available from Scottish Homes[7]. Similar information on registered social landlords in England and Wales is available from the Housing Corporation[8] and Tai Cymru[9] respectively. Information on registered housing associations in Northern Ireland is available from the Northern Ireland Department of the Environment[10].

Higher Education Institutions 25 members per body;
 Further Education Institutions 20 members per body;
 Grant-Maintained Schools 18 members per body.
 Training and Enterprise Councils 15 members per body;
 Local Enterprise Companies 12 members per body

Registered Housing Associations 12 members per body; and
Registered Social Landlords 12 members per body.

Actual numbers will vary. In particular, figures for Higher Education may be underestimated as some institutions have much larger governing bodies. [1]Further Education Funding Council for England, Cheylesmore House, Quinton Road, Coventry CV1 2WT. Tel: 01203 863000.

Note : Figures show total number of appointments to all non-departmental public bodies listed in this publication. In some instances, these appointments are not made by Ministers or sponsoring departments. Further information is contained, where applicable, in detailed departmental tables below. Ministers may also make appointments to other types of bodies outside the scope of this publication.

(a) The Lord Chancellor makes appointments to a number of tribunal NDPBs. These are judicial appointments (see also individual tribunal entries in departmental tables below).

(b) These are Boards of Visitors to Penal Establishments in England and Wales and Boards of Visitors and Visiting Committees in Northern Ireland.

(c) The Secretary of State for Wales also makes appointments to bodies outside the scope of this publication. Details of these bodies and their appointees appear in Appointments by the Secretary of State for Wales which is updated quarterly. Reference copies are available in the Libraries of the House of Commons and the Welsh Office, Cathays Park, Cardiff.

Quinquennial reviews of non-departmental public bodies

Non-departmental public bodies (NDPBs) undergo review at least every five years. Reviews are conducted in two distinct stages. The first "prior options" stage examines the case for: abolition; transferring part or all the functions to another body; rationalisation; privatisation and continuation of the body as an NDPB. The second stage of the review, which only commences when it has been agreed that an executive NDPB is the most appropriate and cost-effective means of discharging a function, looks at the whole system of financial management and control within the body. The table below shows the larger (over 100 staff) executive NDPBs scheduled to be reviewed in the 1998/99 financial year.

The programme may be subject to change depending on the outcome of the Departmental Spending Reviews which are currently being carried out as part of the Comprehensive Spending Review. Additionally, the review programmes for Scottish and Welsh Office NDPBs may be affected as devolution proposals develop.

Sponsor Department	Title of Executive NDPB	Review Due to Begin
Ministry of Agriculture, Fisheries and Food	Meat and Livestock Commission	Late 1998
Department of Culture, Media and Sport(a)		
Department for Education and Employment	Remploy Ltd	1998/99
Department of the Environment, Transport and the Regions	Countryside Commission	1998/99
	Rural Development Commission	1998/99
Foreign and Commonwealth Office	British Council	Summer 1998
Home Office	Criminal Injuries Compensation Authority(b)	1998/99

Contents

COLUMN 1 All Bodies

Gives details of the title of each body in existence on 1 April 1997.

A contact name and telephone number is provided at the beginning of each departmental section, should further information be required regarding individual bodies.

Addresses and telephone numbers of executive NDPBs, nationalised industries and public corporations are provided under individual entries listed in the Index.

COLUMN 2 NDPBs, Nationalised Industries & NHS Bodies

Shows the number of bodies where there is more than one in the same group.

COLUMN 3 Executive NDPBs & NHS Bodies

Shows the number of employees on 1 April 1997. Part-time employees are counted as half. Among the executive NDPBs, the Advisory, Conciliation and Arbitration Service and the Health and Safety Commission and Executive are unique in that their staff, while directly employed, have civil servant status.

COLUMN 4 Executive NDPBs & NHS Bodies

Shows the total gross expenditure (rounded to three decimal places) for 1996/97, before account is taken of income or revenue from any source.

COLUMN 5 Executive NDPBs

Under an Agreement between the Comptroller and Auditor General (C&AG) and Her Majesty's Treasury, the C&AG should be either the auditor of, or have inspection rights to, all executive NDPBs. Column 5 indicates whether the accounts are subject to full audit by the C&AG (marked 'X') or whether he has not been appointed as external auditor but nevertheless has access to the body's books and records (marked 'Y'). In the latter cases commercial auditors are usually employed as the external auditors. Where no symbol appears, access arrangements for the C&AG are in the process of being formalised. The C&AG (Northern Ireland) operates under a parallel Agreement in respect of executive NDPBs sponsored by Northern Ireland departments. However, executive NDPBs sponsored by the Northern Ireland Office are the responsibility of the GB C&AG.

COLUMN 6 Executive NDPBs & NHS Bodies

Shows the amount (rounded to three decimal places) of the gross expenditure met by Government grant or grant-in-aid for 1996/97. Unless otherwise noted, this does not include repayable loans, or payments for goods or services made by departments on a customer/supplier basis.

COLUMN 7 All NDPBs

Shows the net cost to that body's sponsoring department in carrying out its sponsorship role (rounded to the nearest £1,000) for 1996/97. The figures are made up principally of staff costs, accommodation and common services costs, fees and expenses. The figures exclude expenditure which is repaid by the body; loans to the body and payments to it for services; the direct funding of the body as shown in Column 6; and expenditure on associated policy work undertaken by the department which does not depend on the existence of the body.

COLUMN 8 All Bodies

Shows how the body's annual report may be obtained, as follows:

Cm = published as a Command Paper (and obtainable from The Stationery Office).

HC = published as a House of Commons Paper (and obtainable from The Stationery Office).

TSO = a non-statutory Stationery Office publication.

Body = obtainable only from the body or nationalised industry.

NP = not published, or ad-hoc or periodic reports only, etc.

COLUMN 9 Executive NDPBs, Nationalised Industries, Public Corporations & NHS Bodies

Shows Chief Executives' remuneration details for the 1996/97 financial year. Remuneration totals are shown inclusive of basic salary, including geographical allowances such as London Weighting; performance related bonuses; any employer's contributions paid in respect of the Chief Executive under the pension scheme; any sums paid, by way of expenses allowance; the estimated money value of any other benefits receivable by the Chief Executive otherwise than in cash; and any agreed sum on taking up appointment, if applicable. Where there has been more than one Chief Executive over the period, the aggregate remuneration is shown.

COLUMNS 10-12 All Bodies

Shows the detail of appointments as at 1 September 1997.

M = Male F = Female

COLUMN 10

Shows details for the Chairman or President (possibly more than one Chairman).

COLUMN 11

Shows details for the Deputy or Vice Chairman or Vice President (possibly more than one).

COLUMN 12

Shows details for members.

Ministers, civil servants or military officers who are ex-officio members of an organisation are not shown. Unless otherwise indicated, the appointments shown are made by The Queen or Her Ministers (including appointments made on their behalf or jointly, and those made by Heads of Departments in Northern Ireland), and are part-time and unpaid. However, brackets thus {} denotes an appointment by others. Bold type thus denotes a full-time appointment.

Any remuneration (rounded to the nearest pound) is shown (in some cases as a band); these are annual payments unless noted as

being per day (pd), or half day (hd), or per meeting (pm), or per case (pc). Normal expenses, that is, travel and subsistence, are not included. In general, remuneration and expenses will be reflected in the expenditure figures in either column 4 (for executive bodies and NHS bodies) or column 7 (for advisory bodies, boards of visitors and tribunals).

COLUMNS 13-14 Tribunal NDPBs

Reflect tribunals' workload, showing the number of applications received relative to the number of cases disposed of.
